

IFS Fostering Social Justice

OVERVIEW IMPACT DIAGRAM

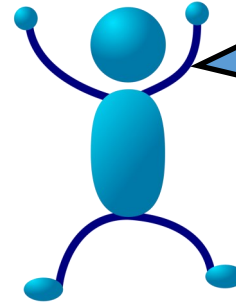

Participants have contributed to change of practices, and acquired new skills and knowledge.

The 12 partners have changed their organisational practice as a result of research and analysis from participants

The IFS network is more connected and collaborates more while promoting social innovation

National and EU institutions are more aware of the importance of the IFS network to foster social justice

Impact measurement tools

I have analysed new ways of supporting the empowerment of migrants, and discussed this in detail with my organisation about improving our practice.

I have set up a new pilot project in my country to support citizen action

Our local or national team has worked on new methods to make our adult education work more efficient and impactful to achieve social justice

We know where to look for information about social innovation in the network

We want to work with this country on new social justice projects

As Minister, I understand more about social centres, and their innovative social practices.

We the EU and UN have evidence about the power of community in Europe and will take into account your White Paper recommenda-
